

# SATURATE TRAINING MENU

---

Saturate seeks to be a catalyst for the gospel movement happening in North America and beyond. We equip everyday disciples to proclaim Jesus, be the Church, and participate in His mission until every woman, man, and child has a daily encounter with Jesus. Saturate Everyday events exist to come alongside church and organization leaders to equip everyday disciples around Jesus is better, His Church is more, and His mission is everyday. A team of Saturate certified trainers is available to lead training events around these areas. These events are designed for everyday followers of Jesus, whether in your specific church or organization, or invited from across your region.

## 1. SATURATE EVERYDAY EVENTS

Each of the Saturate Everyday events can be shaped around your context, but generally are five-session, interactive trainings held onsite or online to help everyday followers of Jesus define the gospel and how it applies to our everyday lives. Through teaching, Q&A, and exercises, participants will gain understanding and practice in applying the gospel to themselves, with their Christian community, and on everyday mission to the world around them. Church leaders will be equipped with a six-month follow-up plan to help embed the workshop's principles among your organization for the season following the event.

### Gospel Fluency (Jesus is Better)

To become fluent in a new language, you must immerse yourself in it and commit to practicing it, over and over again. You must use it everyday until you actually start to think about life through it. Becoming fluent in the gospel happens the same way—after believing it, we have to intentionally rehearse it to ourselves and to others and immerse ourselves in its truths. Only then do we see how everything in our lives, from the mundane to the magnificent, is transformed by the hope of the gospel.

### Everyday Discipleship (His Church is More)

Everyone is a disciple of someone or something, and we all make disciples of someone or something. "Discipleship" is one of the most vague, mis-defined, and misunderstood terms in Christianity. The way we define "disciple" and "discipleship" impact our view of God, everyday life, church, work, relationships, ministry, mission, and more. Now more than ever, in an increasingly isolated and individualistic society, everyday followers of Jesus need to know that they have a role to play in discipling one another.

### Mission in Community (His Mission is Everyday)

Jesus' great commission is to make disciples, and we believe that the Christian life is designed to happen together, but many followers of Jesus don't know what this looks like in tangible ways in our everyday lives. Community without mission is codependency.

Mission without community creates mercenaries. A community on mission loves, proclaims the good news of Jesus, and displays the power of the gospel.

## 2. PODCAST/WEBINAR RECORDING

We would love to join you through the variety of audio, video, and online means we all have at our disposal! Our Saturate certified trainers are available to serve your church or organization through recorded content and conversations like podcasts, or through live online training, such as webinars.

Saturate prioritizes training on concepts like gospel fluency, everyday discipleship, community on mission, church planting, and church leadership/pastoral health. But our team will be happy to work with you to craft a podcast/webinar that best fits the specific needs of you and your group.

## 3. OTHER

If your organization is hosting a conference, doing a workshop on a specific area of life or faith, or looking for a guest preacher on a Sunday, we are honored that you would consider one of our trainers to join you. Once we review your request, our Saturate team will work with you to find the best trainer for the content, dates, and location of your event. Thank you for desiring that one of our Saturate trainers be involved in your event!

### A NOTE ON SATURATE TRAINERS

Saturate is blessed to have a number of gifted men and women serve on our training team who live in various regions across North America, and increasingly across the world. Each is a seasoned, fruitful practitioner of the content they train, and each has been vetted, approved, and certified on Saturate's training content and methodology. You are free to request a specific trainer for your event; whether that person is available or we work with you to find a trainer that fits your needs, you can be confident in the quality of the training, and that your time with him/her will serve you well.

# HOSTING A PUBLIC, IN-HOUSE, OR ONLINE EVENT

In-person trainings generally start at \$2,500 for two-day events with expected attendance of <250 attendees, plus travel and logistics expenses for two Saturate team members. We will work with you on the cost of online trainings.

## 1. IN-HOUSE EVENT

An in-house event is an invite-only event that you host specifically for people within your church or organization. Here's what this would look like:

- Our Saturate team works with your team to identify the right event content for you.
- Your organization coordinates all registration, promotion, etc.
- Your organization provides the venue, any hospitality items you'd like to offer (drinks, snacks, etc.), an honorarium, and travel/food/lodging expenses for a Saturate trainer and an associate.
- Your Saturate trainer talks with you before the event to gain context that helps shape the training for your specific audience, and walk through logistics and any questions.
- In addition to the training event itself, your Saturate trainer meets with key leaders on the front end of the event that will lay the groundwork for a "next steps plan" that equips you and your leaders to implement the content in the months following.

## 2. PUBLIC EVENT

A public event is one hosted by your church or organization and is also open for anyone to attend from the surrounding area. We generally aim for expected event attendance of at least 250 people. While each event is unique, here's what public events generally look like:

- Our Saturate team works with your team to identify the right event content for you.
- With your input, our Saturate team usually handles ticket pricing and registration. The Saturate team provides online marketing via social media and promotion to our contacts. We ask the host organization to promote locally and to their contacts.
- Your organization provides the venue, any hospitality items you'd like to offer (drinks, snacks, etc.), and guarantees any deficit between registrations and a minimum amount to cover an honorarium and travel/food/lodging expenses for a Saturate trainer and an associate.

- Your Saturate trainer talks with you before the event to gain context that helps shape the training for your specific audience, and walk through logistics and any questions.
- In addition to the training event itself, your Saturate trainer meets with key leaders on the front end of the event that will lay the groundwork for a “next steps plan” that equips you to implement the content in the months following.

### 3. ONLINE EVENT

An online event is an invite-only event that you host specifically for people within your church or organization. Here's what this would look like:

- Our Saturate team works with your team to identify the right event content and details for you.
- Depending on your desires, Saturate will either give you access to pre-recorded content you can stream to participants at a set time frame, or will shape real-time content to your specific audience.
- Our Saturate team or your trainer will talk with you before the event to gain context, walk through logistics, and answer questions. We can also supply you with discussion guides, etc. as needed.
- Your organization coordinates all registration, promotion, etc.
